Subject: MHD salt and sand storage

---

Hi Dave,

I wanted you to know that I have observed a large uncovered pile of sand and salt being stored at a MHD facility area on Rt. 140, near the Rt. 290 interchange, on the border of the towns of Shrewsbury and Boylston. The site would be located officially in Shrewsbury on Rt. 140. It is an area that houses a salt shed, which is also filled to capacity at this time. I pass this site twice a day going to and from work, as it is about 1/4 mile from my home. The paved area that the pile sits on is not a level site so runoff from the uncovered pile would definitely leave the site and travel down Rt. 140.

Timely observation, since the MHD's NOI still has not been issued and the lack of good housekeeping operations such as this are troublesome.

Hope all is well.

LD
